EXPERIENCE

Software Engineering Intern
Persistent Systems, Enterprise & IT Applications, PiAssist Team

May 2026 – Present (Expected Nov 2026)
Pune, IN

- Shipped 5+ production-grade features for an enterprise Microsoft Teams AI chatbot – architecting the backend logic that transforms live external API data into real-time, actionable bot responses.
- Drove the reliability of the agent's core task-processing pipeline as the team's Python Developer, ensuring the bot could act on API-sourced information without failure across releases.
- Resolved 3+ production issues in the chatbot's response logic, diagnosing and fixing bugs that caused incorrect or failed bot responses to keep releases stable and on schedule.

Teaching Intern
Blue Blocks International School

May 2025 – July 2025
Hyderabad, IN

- Designed and delivered a full astronomy curriculum aligned with Cambridge standards, tailoring grade-specific workshops that translated complex concepts into engaging, age-appropriate lessons for 100+ students.
- Applied classroom management strategies that improved student engagement, sustaining a positive learning environment across multiple grade levels throughout the program.

PROJECTS

AI Compass – AI Readiness Assessment & CoE Accelerator | *React, TypeScript, FastAPI, SQLAlchemy, Recharts (In Progress)*

- Building a full-stack web portal that assesses enterprise AI maturity across 6 pillars via a structured self-assessment with maturity scoring.
- Designing an interactive radar chart and a 30-60-90 day roadmap generator powered by an LLM recommendation service.
- Developing React + Vite + TypeScript frontend and FastAPI + SQLAlchemy backend with a GenAI chatbot assistant.

Pinspire | *Next.js, TypeScript, FastAPI, PostgreSQL, Tailwind CSS*

- Built a production-ready full-stack AI-powered content platform with a Next.js frontend and FastAPI backend.
- Designed an 8-table relational PostgreSQL schema via SQLAlchemy ORM to support content, users, and engagement data.
- Deployed frontend on Vercel and backend on Railway with Cloudinary image hosting and hashed-password auth infrastructure.
